

RUBBER E78002

Rubber headband for PIXA headlamp, compatible with all helmet types

The RUBBER headband adapts to all helmets on the market and holds the PIXA headlamp securely in position.

Selling points

- Compatible with the entire PIXA line
- Ideal for industrial helmets that are not equipped with positioning hooks
- The rubber holds the headlamp securely in place on the helmet
- The plate allows quick and easy mounting of the headlamp
- May be used in all situations, including aggressive environments (rubber is a very robust material).
- Buckle adjustment system is easy to manipulate
