SAFETY

ULTIMATE EYE PERFORMANCE AND  
TRUSTED PROTECTION SINCE 1960.

# PLATINUM

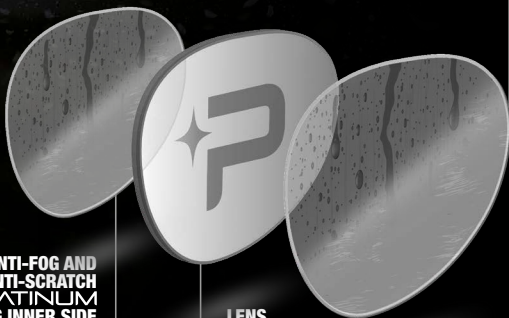

THE ULTIMATE PROTECTION AGAINST FOG & SCRATCH

**Crystal-clear vision with our ultimate protection against fog and scratches, ensuring optimal visual clarity in any situation.**

Our exclusive PLATINUM coating, applied through a permanent dipping process on both sides of the lens, is 100x more effective than the highest anti-fog industry standard based on EN166 protocol.

Whether indoors or outdoors, in extreme temperatures, PLATINUM ensures exceptional vision and safety. With its wash-resistant properties, our protective eyewear can be reused without compromising its full effectiveness.
