

# Morakniv Garberg Black Carbon

This blackened Carbon full tang knife is designed to meet the long-time wishes from our most dedicated users, as well as the desires of the knife lovers that haven't yet discovered the world of Morakniv.

The knife is developed to handle the most challenging tasks it may be exposed to. Our full tang model is the most robust knife we've ever made and has a genuine Morakniv design. We've used the best and most rugged materials in every part of the knife, from the handle to the blade. As with all our knives, it's produced in our own factory in Mora, Sweden according to our SGM® (Steel Grade Mora) standard. The blade has a Scandi-grind profile that makes it easy to keep sharp and a ground spine compatible with a fire starter. The blade has a DLC coating: a dark, hard, scratch-resistant coating. It is very thin, only about 1,5µm. The coating helps to protect the carbon steel from corrosion.

In this exclusive version, it's delivered in a unique and vigorous black leather sheath or a robust polymer sheath with Multi-Mount kit.

## Multi-Mount

Multi-Mount is a versatile mounting solution for Morakniv Garberg. You can mount the knife almost wherever you want, and you can attach and detach it fast. Of course it's also possible to take the knife directly out of its sheath for even faster use.

Together with the Multi-Mount fastening system, your knife is just seconds away. Place it on your snowmobile, canoe, or ATV - when the knife is placed in the holder it can take a bumpy ride on any vehicle. Attach and detach the knife from the mount in just a couple of seconds. Of course, it is also possible to just take the knife straight out of the sheath and use it. It is compatible with the MOLLE standard mounting system, and has strategically placed screw holes and slots for different types of straps.

# A part of you since 1891

Firmly anchored in a long tradition of craftsmanship, our first factory was founded on the outskirts of Mora in 1891. It successfully combined the benefits of hand-forged blades and industrial manufacture. The result was a knife with a grip-friendly handle and a very sharp and robust blade. Today, the knife from Mora is known for its high quality and is also recognized as a national symbol of Sweden.

We take pride in our heritage and that every one of our knives are made in Mora, Sweden. Therefore we have decided to name our new series of outdoor knives after places in and around Mora that inspire us. This means that the beautiful region of Dalarna and the proud origins of Morakniv are always close by

## Your Morakniv warranty lasts a lifetime

A knife from Morakniv is a robust tool that is made to last. Morakniv guarantees that all of our knives are free from defects in material, construction or workmanship for the life of the product under normal use according to the care guidelines on our website. If the knife is defective due to materials or workmanship, we will repair it at no cost or replace it with a new knife of the same or an equivalent model.\*

Morakniv is proud of and well known for our high quality. Our customers shall feel confident that every Morakniv they buy will last for a long time under tough conditions.
