

MORAKNIV®

Mora 2000 (S) Anniversary Edition

The Morakniv 130-year Anniversary also marks the 30-year jubilee of the legendary Mora 2000. This characteristic new knife is a true collector's item. When the knife was launched back in 1991, it was given the futuristic name Mora 2000. Thirty years have now passed and the Anniversary Edition is a tribute to the original knife. The Mora 2000 (S) Anniversary Edition will only be produced during 2021.

MORA 2000

MORAKNIV  1891 - 2021

MADE IN
SWEDEN *STAINLESS*

The new Mora 2000 (S) Anniversary Edition has a limited black colour to the optimal friction grip handle. The 2.5 mm thick polished blade is made of Swedish stainless steel of the highest quality, hardened and treated in our factory in Mora, according to a secret company recipe. The blade of this special edition is marked with an engraving, dating the years of Morakniv 1891 – 2021. The Scandi grind profile makes it easy to keep sharp, while the blade also has a profile grind for increased precision. Just as the original Mora 2000 the spine is rounded. Also, the polymer handle doesn't conduct cold, which means that working with the knife is equally safe and comfortable any time of year. The sheath made in black polymer has an adaptable black leather strap so the knife is always close at hand on your belt or rucksack. This knife is a must for the outdoor enthusiast's next adventure. Made in Sweden, refined from our iconic past.

The Mora 2000 (S) Anniversary Edition comes in an 1-pcs box, as elegant as the knife inside. Available in 15-pcs display.
