

UPDATE NOTICE

B-CLEAN

Dear valued partner,

In the last few months we have developed a new version of our B-CLEAN cleaning products: **new design, new formulas, new references and new EAN codes** for even more protection for your safety glasses and goggles. **The product names stay the same for more simplicity.**

Our new range will replace old references starting from **July 2020**. Your current/upcoming order will potentially include our new references.

Comparing our B-Clean references

Product Name	Old SKU	New SKU	Description	Security Sheet

We would like to take this opportunity to remind you that our **anti-fog wipes FK12 have been discontinued**. A new anti-fog product adapted to anti reflective lenses is currently being designed. Communication regarding this new product will soon be sent to you.

For any extra information, and to discover the new products' EAN codes, simply read through our B-CLEAN range [datasheet](#) or contact your sales representative.

Bollé Safety Team,
