

BLUE BLOCKER

SHIELDING YOUR VISION AGAINST BLUE LIGHT

Blue Blocker lens technology guarantees a great **protection against harmful blue light** of all kind (screens, lighting) to reduce its impact on health (headache, tingles, dazzle). Counterpart of our B-Zen lens technology, Blue Blocker is offered on **plano lenses** to improve visual comfort. Available on a **wide range of frame** (with and without side shields), this technology is **in the core of 2mm thick PC lenses** which provide a great durability as well as a **protection against impact** as rated by the EN166 standard.

LENS MARKING

Optical class symbols:

1. Continuous work

Mechanical strength symbols:

S. Extra strong, resists a 22 mm 43 g ball falling 1.30 m at 5.1 m/s.

F. Low energy impact, resists a 6 mm, 0.86 g ball at 45 m/s

Maximum protection for glasses.

Others symbols:

☞ European standard ☞ Manufacturer name

FRAME MARKING

EN 166: guaranteed minimum resistance of the protective eyewear against everyday risks including dropping the protective eyewear onto the ground, exposure to heat or corrosion etc, under EN166 standard.

S. Extra strong, resists a 22 mm 43 g ball falling 1.30 m at 5.1 m/s.

F. Low energy impact, resists a 6 mm, 0.86 g ball at 45 m/s

Maximum protection for glasses.

☞ European standard ☞ Manufacturer name

Bollé Safety product approval certificates to CE standards will be sent on request.

TECHNOLOGIES

BLUE BLOCKER

This clear blue light filter blocks 35% of the harmful blue light. In the core of the lens, it is more durable. Blue Blocker technology enhances the wearer's perception of contrast and colours, without tinting the vision. Moulded in 2mm PC lenses, it provides all the protection offered by polycarbonate, and more. Specifically designed for plano users, it cannot be used on prescription equipments (see B-ZEN technology for prescription eyewear). Available on products ranging from curve 4 to 8, Blue Blocker can be shaped to anyone's needs.

CLEANING AND STORAGE

CLEANING: The lenses should be cleaned regularly. Bollé Safety recommends only using the B-clean lens cleaning system. **A microfibre pouch is provided with every product to that effect.**

MAINTENANCE: Pitted, scratched or damaged lenses must be replaced by replacing the complete product. If the frame is damaged also replace the complete product. After each use it is recommended to keep the spectacles in the **rigid case provided with the product.**

STORAGE: All products must be stored in a dry and clean environment.
