HOW TO TAKE MEASUREMENTS (valid for all powerskin racing section)

- A - Chest:** Take the measurement over the fullest part of your bust.
- B - Waist:** Measure around the narrowest part of your waistline.
- C - Hips:** Measure around the fullest part of your hips.
- D - Torso loop:** In a loop, measure from the highest part of the shoulder, beneath the crotch and then back to the starting point.

(**) Body measurements and corresponding sizes are to be considered as a general guideline. We strongly recommend that any racing suit should be tried on by each swimmer before choosing the appropriate size, based upon individual preference in terms of compression. Swimming stroke and distance may also be key factors in the suit selection.
